PAKKAM · பக்கம்

Ask in your language. Get the answer with its proof.

A voice-first assistant for Tamil Nadu and central welfare schemes. Every answer opens the exact page of the official document. If the documents don't say it, Pakkam says so.

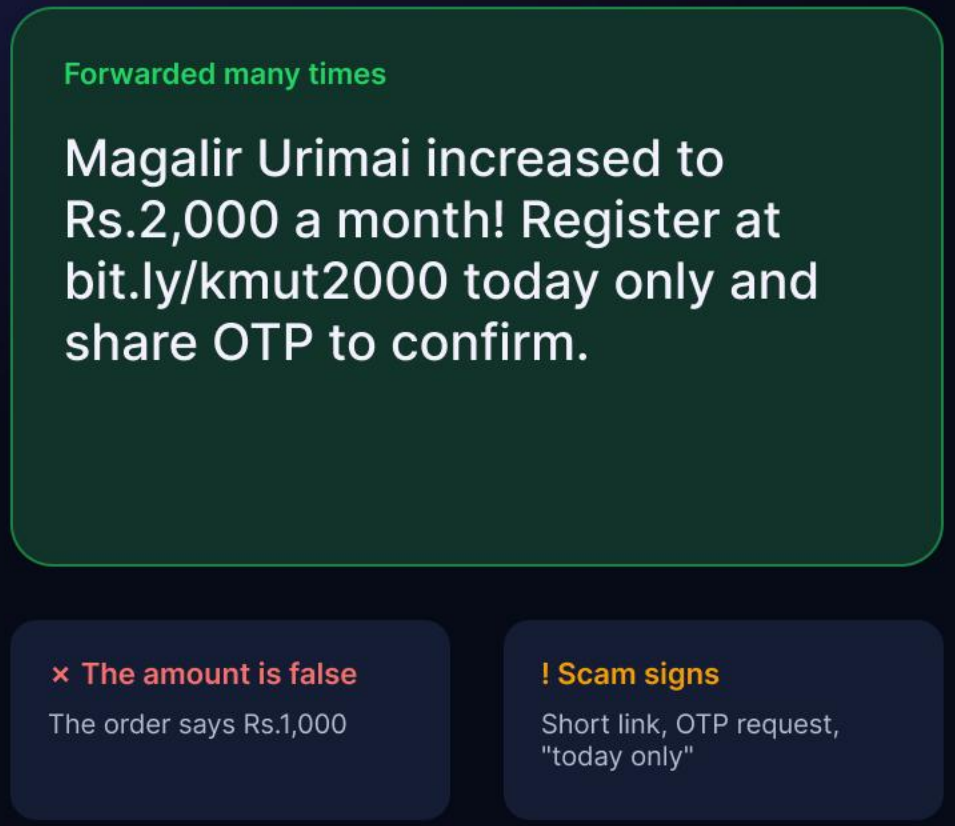

Tap. Ask. See the proof.

Gnani.ai Great Indian AI Internship Challenge 2026

THE PROBLEM

One rumour. One grandparent.

The rules exist, but in long official orders. A WhatsApp forward is faster than the truth, and scams ride on it.

The real Rumour Shield example in Pakkam.

PAKKAM IN ONE LINE

Ask in your language.
Get the answer with its proof.

Proof on every answer

The exact page of the official document, the line highlighted.

Just speak

Tamil, Tanglish, Hindi or English, by voice. Gnani Prisma in, Gnani Timbre out.

Stop the fake forward

Paste a WhatsApp message and see which claims are false, and the scam tricks.

THE LIVE DEMO, IN 60 SECONDS

Show, don't tell.

1. Paste the Rs.2,000 rumour into Rumour Shield
2. Ask about the scheme in Tamil, by voice
3. Read the answer with its sources
4. Open the Government Order page, line highlighted
5. Ask something the documents do not cover
6. Pakkam refuses honestly. It never guesses.

HOW IT WORKS

Grounded by design, not by hope.

1. **Voice or text**
   Gnani Prisma speech to text, Tanglish too
2. **Search**
   Hybrid search (BGE-M3) over 18 official documents
3. **Rerank**
   A reranker keeps the pages that really answer
4. **Write**
   Only from those pages and signed fact cards
5. **Check**
   Every sentence cites a page; every number is on it
6. **Show and speak**
   Page opens, line highlighted; Gnani Timbre reads it

If the pages don't answer it, or any check fails: "This is not in the official documents." Pakkam never guesses.

TESTED, HONESTLY · LIVE SITE, 3 NOV 2026

We measured it the way a visitor would use it.

194

real questions in 4 languages

98%

of answers cite the correct page (133 of 136)

39 / 40

out-of-scope questions honestly refused

Method

154 questions the documents cover and 40 they do not, sent one at a time. An answer counts only if it cites a page that really holds it; a refusal counts only for out-of-scope questions. 18 covered questions were declined rather than guessed.

The one miss

A Hindi question about the date of the next PM-KISAN instalment was answered instead of refused. It is in the public report.

WHAT'S NEXT

Coverage, not cleverness.

1. More schemes: split the 4 policy notes into their own signed rows
2. Signed Hindi fact cards, and better Hindi and Tanglish answer rates
3. A hosted backend, so the live site never depends on one laptop
4. Faster answers: a "still checking the page" step for slow ones

MADE BY

Jaswanth S S

Idea, AI and backend

Built for the Gnani.ai Great Indian AI Internship Challenge 2026, with Gnani Prisma and Timbre for voice. A student project, not a government service.
